

# MOULDED STRIP AND BLOCK BRUSHES

## IDEAL FOR:

- MACHINE GUARDING
- FOOD PROCESSING
- PEST CONTROL
- SPRAY SUPPRESSANT
- DUST AND DOOR SEAL
- GRASS AND TURF MAINTENANCE
- EQUESTRIAN JUMP BRUSHES
- CONVEYOR CLEANING BRUSHES
- HORTICULTURAL INDUSTRY

This type of brush making is quite unique as it is virtually unrestricted in the length of bristle that can be used.

Individual bristles are moulded directly into our unique polyurethane base making it nearly impossible to remove.

## MOULDED STRIP AND BLOCK BRUSHES

Having developed our Unique Brush Moulding System some 20 years ago we are now the industry leaders in custom and standard moulded strip and block brush production throughout Asia Pacific and possibly the world.

We are constantly approached and work closely with OEM designers and engineers looking to develop new and innovative brush products.

This type of brush making is quite unique as it is virtually unrestricted in the length of bristle that can be used and the density of fill required. Individual bristles are moulded directly into the polyurethane base and it is nearly impossible to remove them, this type of brush is extremely hardy and durable in all outside elements.

Please contact our friendly staff today with your special requirements and let us create the perfect brush to suit your desired application!
